WORLD WAR II PRISONER OF WAR CORRESPONDENCE

717    ☒    A fascinating original correspondence consisting of 1,006 Kriegsgefangenenpost envelope and cards originating from various German Stalags (prisoners of war camps), condition as expected ranging from mixed to very fine. All handwritten in French and mainly to five different family names - Madame V Branly, Henri Brochart, Mme Priset-Florentin, Madame Cotrez and Raymond Leroy. It would take weeks for event a fluent French speaker and historian to assimilate all the information - primary sources of WWII. Regarding the postal history side, we have noted various types and shaped cancellations, such as shields, double ovals, coloured cancels in blue, red, carmine and other obscure symbols, straightlines, circular datestamps, including range of mutes. Period of the correspondence begins primarily through the occupation period from 1940 and comes to abrupt halt in mid 1944. An impressive lot, offered intact and as received; a great opportunity for the postal historian and World War II historian alike.

2. The highest bidder shall prevail at one advance over the next highest bid. Should a dispute arise between bidders, the decision of the auctioneer as to the successful bidder or the re-offering or resale of the lot in dispute shall rest entirely in the judgment of the auctioneer. **On all lots sold a commission of 15% on the hammer price will be payable by the buyer.** The auctioneer shall regulate the bidding and reserves the right to refuse any bid believed by him not to be made in good faith.

## PAYMENT FOR PURCHASES

3. **U.S. funds are acceptable only at the equivalent amount shown on the invoice.** Visa, MasterCard and Paypal are accepted at a charge equal to 3.5% of the hammer amount. Please include the information on your bid sheet.
4. Payment for lots, including those on which opinions are desired under Condition of Sale 8, shall be made as follows:

A successful mail bidder will be notified of lots purchased and must remit before the lots are sent. Proof by receipt of sending at the advised address shall constitute delivery. Postage and insurance are payable by the buyer.
5. Title shall not pass to the buyer until Eastern Auctions Ltd has received full payment.

## QUALITY AND AUTHENTICITY

7. Each lot is sold as genuine and correctly described based on individual description as modified by any specific notations in this catalogue including (but not restricted to) “Key to Cataloguing”.
  - (a) **QUALITY.** Any lot, description of which is incorrect, is returnable within forty-five days from closing date of auction. If the opinion of a mutually acceptable authority is desired, this period will be extended as noted in Condition 8. All disputed lots must be returned intact in the condition received. Photographed lots are not returnable on account of centering or perforations. Lots containing more than twenty stamps, described “as is”, or described as having faults are not returnable for any reason. Bidders who have had an opportunity to examine the lots prior to the sale may not return the lots.
  - (b) **AUTHENTICITY.** Any lot, which is declared other than genuine by a mutually acceptable authority is returnable, provided the lot is received within a period of four weeks from the date of the auction. Proof that a “mutually acceptable authority” declines to express an opinion is not normally grounds for the return of a lot.
  - (c) Returns must be made by registered mail.
  - (d) Lots marked or encapsulated by an expert committee are not returnable for any reason.
  - (e) Lots accompanied by an existing certificate are not returnable.

## EXTENSION OF TIME

Hinging on these items is irrelevant to their condition and value. If hinging is important to you in such cases please contact us before bidding and request further information. **We will not accept the return of used stamps or ungummed items due to hinging.**

Hinging on mint stamps is always disclosed, however, never hinged status should not be expected unless specifically stated “never hinged” or “NH”.

If an estimated cash value is given, it is shown in the description and always indicated by the abbreviation “Est.”. It is used where the lot is large or where the actual value has little relation to the catalogue price. **It represents the auctioneer’s appraisal of the true CASH value of a lot and the figure is invariably close to the actual realization.** It is useless for mail bidders to list any bids that are only a low proportion of such estimates.
