## QUEEN ELIZABETHAN MODERN ERRORS & VARIETIES

*This following section comprises some of the better items from the extensive tagged stamp collection formed by Del Peters; one of the leading authorities on the subject. We encourage new and advanced collectors to use the up-to-date online tagging catalogue at [www.adminware.ca](http://www.adminware.ca) / tagging. This collection is replete with tagging varieties, errors and other oddities, logically divided by definitive issues and commemoratives (see Lots 1254-1263). In our opinion, this collection is unquestionably the most comprehensive of its kind to be offered at auction.*

- 1110 ★ 339p + variety, 1962 3p Wilding, W2B Tagging** Upper Left Plate 2 block with a very rare one-bar tagging (W2aC) - a great item for the specialist; believed to be UNIQUE, as Harris handbook reports one unused and seven used singles only, F-VF NH **Est. 1,000.00+**

- 1111 ★ 340p + variety, 1962 4c Wilding, WCB tagging** Upper left blank corner block with **double tagging** variety; slight disturbance on top pair - listed in R. Harris handbook (for used) but unpriced mint, an indication of its rarity, VF OG / NH **Est. 500.00+**

If hinging is important to you in such cases please contact us before bidding and request further information. **We will not accept the return of used stamps or ungummed items due to hinging.**

Hinging on mint stamps is always disclosed, however, never hinged status should not be expected unless specifically stated “never hinged” or “NH”.
