Public Auction

November 6, 2010 - Halifax, Canada
Worldwide, British North America
Canadian Fancy Cancels

**Contact us for your
complimentary catalogue**

Our next public auction features strong worldwide collections, particularly of Portugal and Colonies and Middle East. This section is followed by some valuable and scarce stamps, full sheets, proofs and booklets of Newfoundland and Provinces.

One highlight of this sale is the exceptional and extensive Canadian Small Queen fancy cancels collection formed by the late Jim Hennok. Without any doubt, it is one of the best of its kind and will surely spark the attention of the serious collector as well as anyone with an eye for the unusual. Hundreds of well-selected fancy cancel strikes and usages on cover will be illustrated in a separate section of our auction catalogue.

Canada deserves a special mention, starting with a wide ranging and powerful section of the 1859-1868 "Cents" Issues, with many "hard-to-duplicate" specialized collections, postal history, postmarks, early printings and proofs. The 1903-1908 King Edward VII issues with rare plate multiples in high-quality and superb die essays; the unissued 1914 Macdonald Cartier with unusually large selection of die proofs, which rarely surface on the marketplace; an important range of choice imperforates and proofs from late 1920s to 1940s; and an excellent showing of scarcer Semi-Official Airmails with a complete booklet of the 1924 Laurentide (First Issue; CL1) and rare flight covers, all round up this very interesting and colourful sale.
